# LUXURY CRAFT

It's the heart and soul  
of everything we do.

Like all classic American things - fast cars, baseball games, the blues, jazz, rock and roll - Verellen furniture was born from a spark of innovation with a nod to tradition. Subsequently refined and polished with a global point of view.

When something is both beautiful and well made, hand-crafted and timeless, it is the best of both worlds. Sustainably sourced and designed to endure. Tradition transformed by innovation.

Belgian conception meets American perfection.

Every piece of furniture in our line is made-to-order at our manufacturing facility in High Point, North Carolina - a city with a century-long furniture making tradition.

From flax, the world's finest linen. From a handful of seeds, a forest of trees. Hand-spun natural fibers yield to a landscape of piles and textures. The smoothest strands from the softest puffs of cotton.

Planed, sanded, double-doweled, measured, cut, sewn.

All by hand. All by design. And all for you.
